Time and time again.

You can count on Toshiba performance whenever and wherever you need it. Do you have a small workgroup filled with busy employees? No problem. A standard 250-sheet cassette and 50-sheet bypass tray can be upgraded with another 250-sheet cassette and 50-sheet Auto Document Feeder or Reverse Auto Document Feeder. The preventive maintenance cycle is 25K, with the toner yield at 8K and 25K for the developer and drum. Because the toner is user replaceable, cartridges can be exchanged quickly to reduce downtime.

Do more with less.

Streamline your workflow with Desktop Document Manager. Desktop Document Manager is a convenient scanning tool that converts both black and white and color documents into digital files that can be archived, emailed, or printed. OCR function converts images to editable file formats such as Microsoft Word and Excel. Scanned documents can also be displayed as thumbnails for easy viewing and searching.

The Toshiba e-STUDIO202S/203S/203SD Series offers exceptional copying, printing and color scanning out of the box. So your work space might be limited, but your possibilities are endless.

*Optional faxing is only available with the e-STUDIO203S and e-STUDIO203SD.
